Getting personal

Suki Gifts International will be showing its full range of Christmas personalised ornaments at the show. This includes angelic Angels, smiley Snowmen and Snowgirls, cheeky Jack Frosts and glamorous Snow Queens and each piece is carefully modelled and hand-painted and finished with glitter accents.

Each 3-sided stand holds 864 ornaments. These include a combination of popular boys' and girls' names or sentiments such as 'Special Grandson'. Each range also includes a number of blank ornaments for people to be able to personalise themselves. The company's personalised display stands have been responsible for some of the highest turnover retail space. Many £1000s worth of sales have been achieved in just a few months from the roughly half a metre square of space which the display occupies.
