

## Welcome to Harrogate!

After two years since the last Harrogate Christmas & Gift Fair, the excitement is high in the halls of the Harrogate Convention Centre today as exhibitors put the final touches to their stands in readiness for visitors arriving at the show tomorrow.

As always, there is a magical atmosphere with sparkling lights, twinkling ornaments and all the glitter and glam associated with the festive season. Retailers and buyers are in for a real treat; with not only everything Christmas related on display, but numerous other gift related products which are guaranteed to add value to every retail shelf.

The doors are open from 9am to 6pm tomorrow (Sunday 16<sup>th</sup>), and the same on Monday and Tuesday; with an early close of 4pm on Wednesday.

We look forward to welcoming you to the show. Don't forget to bring your facemasks and proof of Covid-19 status (either your NHS covid pass, or proof of a negative lateral flow or PCR test).

### A cut above

Artcuts is passionate about creating beautifully crafted gifts and decorations. With a focus on design, the company creates its products from sustainable wood (FSC certified) and the finest materials such as iconic Liberty of London fabrics, Japanese papers and Heritage textiles.

At Harrogate Artcuts will be featuring new craft kits, Spring and Easter decorations, novelty souvenirs as well as new 2022 Christmas decorations. For retailers seeking British-made, quality products, all our ranges are designed, manufactured and hand-finished in our studio and workshops in Surrey.

### Last straw

The Silicone Straw Company is a small family business based in the Yorkshire Dales with a mission to create a convenient alternative to single-use plastic straws. Its products are beautifully simple in design and made using the highest food-grade silicone here in the UK. 100% plastic free packaging; food-grade silicone which is FDA approved; vegan friendly; child friendly and they bend easily.

The travel tins retail at £5 each, so make the perfect stocking filler for people wanting to gift sustainability at Christmas 2022.
