

Advent begins

December has arrived and we are now surrounded by an array of festivities from local Christmas celebrations with official turning on of lights, fireworks and funfairs – to Christmas concerts and school nativities. Lots of annual traditions are also coming into play with children eagerly waiting to open advent calendars – and numerous naughty elves coming out to cause mischief.

Of course Christmas buyers will be well versed in what families will be expecting this year – and they can also have the heads up for the 2023 festive season too by attending Harrogate Christmas & Gift. Here you will see new trends and exciting product ranges guaranteed to be ‘must haves’ for Christmas 2023. If you haven’t already – don’t forget to register online at www.harrogatefair.com

Christmas perfection

Kaemingk is one of Europe’s market leaders in Christmas decorations, with 85 years of experience in garden centres, DIY stores, wholesalers and various retailers.

Every season, the company aims to design a complete and distinctive Christmas collection searching for the latest trends and has a reputation for creative styling, perfect presentation, as well as having an extremely efficient and reliable logistics and quality management system. Kaemingk’s Christmas themes offer innovation and inspiration, season after season. Each theme has its own style and products with innovative colours, materials and shapes. This makes it easy to put together a collection for a specific target group.
